PHOTOGRAPHS OF EUT

A black, rectangular AC-DC power adapter is shown lying on a light blue surface. A yellow measuring tape is placed diagonally across the frame, with one end near the bottom left and the other extending towards the top right, passing behind the adapter. The adapter has a two-prong electrical plug on its left side. The top surface of the adapter is printed with technical specifications and safety warnings. The text includes: "AC-DC ADAPTER", "MAXIMUM POWER: 100W (5V/20A)", "INPUT: 100-240V ~ 50/60Hz 1.5A", "OUTPUT: 5V 2A", "This device complies with the CE mark for safety and performance.", "Caution: To avoid fire or electric shock, do not touch the output terminals.", "CAUTION: Do not touch the output terminals.", "Model: AC-DC-100W". There are also several safety symbols, including a triangle with an exclamation mark, a circle with a slash, and a CE mark. A black cable is connected to the right side of the adapter.
