# **TRIPOD USAGE**

## **SMARTPHONES**

Fit the phone by extending the top/bottom brackets as shown on right.

## DIGITAL CAMERAS

Remove the phone bracket by unscrewing it counterclockwise. The ¼" universal tripod screw is there to secure any digital camera.

#### TO TILT

Use the lever to modify the tilt position of the phone or camera.

#### **FLEXIBLE LEGS**

Bend and rotate joints to achieve the best shooting position. Rubber coated feet offer extra stability.

# **PAIRING THE TRIPOD SHUTTER** TO BLUETOOTH DEVICE

Make sure the Bluetooth function is available on your cell phone. Specific pairing procedures will be different depending on different cell phone. For detailed information, please refer to your cell phone's User Guide.

- If no device connection is made within 5 minutes of the Tripod Shutter being switched on, the Tripod Shutter will automatically be switched off to save power,
- After a successful pairing devices will memorize each. Therefore, no pairing will be needed next time.
- 1, Turn on the Tripod Shutter by moving the switch located on the side of the remote to ON position.
- 2. As soon as the blue LED Indicator light will turn on, the Bluetooth pairing mode will turn on automatically.
- 3. Keep the distance between the cell phone and the Tripod Shutter within 3 feet (for pairing only).
- 4. Activate the Bluetooth function of the cell phone to search for the Bluetooth devices. After finishing the search, select "Tzumi Selfieshutter" in the device list displayed. Once pairing is successful the indicator light will turn off.
- 5. After successfully pairing, the Tripod Shutter can recognize your device operating system (IOS or Android) automatically.

# TRIPOD SHUTTER USAGE
