

Beyond Initial Setup

INTEGRATE

QUALIFY

Many insurance companies now offer discounts for a variety of smart home devices. Call your home insurance provider to see if you qualify for a smart home discount simply by having Notion installed.

RELAX

We take data security seriously. With end-to-end protection in mind, including AES 256-bit encryption onboard each sensor and third party security audits performed regularly, you can rest easy knowing we're not just protecting your home, we're protecting your data too.

Now that we're family, there are a few details we want to share:

Box may contain equipment pertaining to:
FCC ID: 2AE5C-5280-B3, IC: 20391-5280B3 or
FCC ID: 2AE5C-5280-S3, IC : 20391-5280S3

Warranty information can be found by going to www.getnotion.com/warranty. To request a free printed copy of our warranty please call (877) 668-4660.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for Help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC and IC RF (Radio Frequency) exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum separation distance of 20 centimeters between the device/antenna and the user's head/body.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme à la section 15 des réglementations de la FCC. Son fonctionnement est soumis aux deux conditions suivantes: (1) cet appareil ne doit pas causer de brouillage préjudiciable, et (2) cet appareil doit accepter tout brouillage subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet appareil respecte les limites d'expositions aux rayonnements établies par la FCC et l'IC RF (Radio Frequency) pour un environnement non contrôlé. Cet appareil devrait être installé et fonctionné à une distance minimale de 20 centimètres entre l'appareil et le corps de l'utilisateur.

Tout changement ou modification n'ayant pas été expressément approuvé par la partie responsable de la conformité pourrait compromettre le droit de l'utilisateur à utiliser l'appareil.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. Son fonctionnement est autorisé aux deux conditions suivantes : (1) Cet appareil ne doit pas produire de brouillage. (2) Cet appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Quick Start Guide

New to Notion?

Learn more about what Notion can do in this brief video overview:

getnotion.com/video

What's Included in Your Notion Kit

BRIDGE

The Notion Bridge connects to your WiFi to relay information from each sensor to your smartphone.

SENSORS

Notion Sensors detect water leaks, opening doors and windows, sounding alarms and freezing pipes.

MAGNET

Notion Magnets work with Notion Sensors placed on sliding doors/windows to turn movement notifications into open/closed notifications.

What You'll Need to Get Started

SMARTPHONE

2.4 GHz WiFi

POWER OUTLET

Let's Set Up Your Notion System!

- 1 Get your smartphone ready.**
Connect to your 2.4 GHz WiFi. Also, make sure your smartphone's location services are turned on.
- 2 Download the Notion app.**
Go to the App Store, Google Play, or getnotion.com/app to download the app to your smartphone.
- 3 Create your Notion account.**
Open the app and tap "Create a New Account" then register your email address and choose a password.
- 4 Install your Notion system.**
Follow the in-app, step-by-step instructions to set up your Notion Bridge and Notion Sensors.
- 5 Customize your Notion system.**
In the app, personalize how and when to receive notifications, add others to your account, and set up integrations.

Need Help?
