## Correct Disposal of This Product (Waste Electrical & Electronic Equipment)

(Applicable in the European Union and other European countries with separate collection systems). This marking shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

## Federal Communications Commission (FCC) Statement

15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Operation is subject to the following two conditions:

- 1) This device may not cause interference and
- 2) This device must accept any interference, including interference that may cause undesired operation of the device.

## FCC RF Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

## QUICK START GUIDE

# MRS1 SPEAKER FOR MRB1

**The MRS1 must be associated with a MRB1. It can't be used alone.**

### Add MRS1 speakers

1. Plug the Power Supplies to the wall outlet and connect them to all the speakers. The MRB1 LED is blinking blue.
2. To pair additional MRS1, put the MULTIROOM speakers (MRB1 and additional MRS1) in pairing mode (long press 2 seconds power On/Off button). On/Off indicator will alternately blink red/blue.
3. Pairing is successful between MRB1 and MRS1 if all MRS1 On/Off button indicators are steady green and MRB1 is blinking blue, the MRB1 is ready to use.

### Base to MRS1 operating range

- Up to 10 meters in line of sight

### Audio features

- 30 Watts RMS per speaker
- Bass reflex system

**Dimensions:** 145 x 198 x 318 mm

**Weight:** 2900 g
