

# OPERATION MANUAL

## Charging The Earbuds

- To charge your Xtreme VENOM Bluetooth earbuds, connect the supplied cable to the Micro-USB (5) charging port and connect the other end to a USB power outlet (5V adaptor not included) for a minimum of 3 hours.
- For best performance, please make sure battery is fully charged before use.

## Operating Bluetooth Earbuds

1. Turn the Venom Earbuds on by holding the Pause/Play Button (3) until the LED lights (1) begin flashing blue.
2. The earbuds will enter pairing mode. Enable Bluetooth search mode on your audio device and search for pairing name VENOM and select it on your audio device. Once the Xtreme Venom Bluetooth earbuds has successfully connected, device will state that the device has been connected. The LED will remain flashing blue every three seconds.
3. Press the Pause/Play button (3) to answer calls, pause and play and hang up calls.
4. To change to the next track, short press the " + " (4). To raise volume, long press the Volume + Button (4).
5. To change to the previous track, short press the " - " (2). To lower volume, long press the Volume – Button (2).
6. To power down the earbuds, hold the Pause/Play (3) for 3 seconds until the LED light remains off.

### RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement.  
The device can be used in portable exposure condition without restriction.

### § 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.**

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
