

Date: May 6, 2022

Federal Communications Commission
Office of Engineering and Technology Laboratory Division
7435 Oakland Mills Rd
Columbia MD 21046-1609

Subject: Request for Confidentiality
FCCID: 2AECKUBH01

To Whom It May Concern,

Pursuant to Sections 0.457(d) and 0.459 of the Commission's rules (47 C.F.R. §§ 0.457, 0.459), Ubicquia, Inc. ("Ubicquia"), applicant of a contemporaneously submitted certification application (the "Application") for the product associated with the above-referenced FCCID (the "Subject Product"), hereby respectfully submits this request for confidentiality ("Request for Confidentiality" or "Request") and seeks Long-Term Confidentiality with respect to Exhibits 3 and 4 of the CIIPC Application as shown below:

Exhibit 3: Block Diagrams

Exhibit 4: Operational Description

With respect to the materials, information, and description contained in Exhibits 3 and 4 of the Application (collectively, the "Technical Details"), such Technical Details contain trade secrets and proprietary information not customarily released to the public. Such Technical Details are available only to certain employees and contractors of Ubicquia with a need to know and who are subject to obligations of confidentiality to Ubicquia, such as confidentiality or non-disclosure agreements ("NDAs"). The public disclosure of these Technical Details would be harmful to Ubicquia and provide unjustified benefits to its competitors.

The Subject Product is not accessible to the public because it is mounted atop a streetlight luminaire by trained installers using bucket lift trucks. The installers are contractors of Ubicquia or its customers, as applicable, and are subject to confidentiality obligations no less stringent than the confidentiality obligations of Ubicquia's customers.

Finally, Ubicquia acknowledges that under Sections 0.457(d) and 0.459 of the Commission's rules, measurement test reports, FCC ID label format and location, attestation statements, RF exposure information, Ubicquia's cover letter, and correspondence during the certification review process are not eligible for confidential treatment and that such information and data will be available for public review once a grant of equipment authorization is issued.

We look forward to receiving the Commission's decision with respect to this Request for Confidentiality. If any questions should arise during the Commission's consideration of this Request, please contact me so that we may promptly answer them.

Sincerely,

Sincerely,

A handwritten signature in black ink, appearing to read "Gustavo Suarez". The signature is fluid and cursive, with a large, stylized initial "G" and "S".
