

### Caution

1. Do not disassemble or throw into fire or water.
2. Do not expose to extreme weather conditions.
3. Do not place close to a magnetic strip or strip card as it could cause magnetic failure.
4. Please keep charger a safe distance of at least 80cm from any implantable medical devices to avoid medical device interference.
5. This is not a toy and should be kept away from children.
6. In the case of the device overheating, please disconnect immediately.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Cygnett takes no responsibility for damages caused by incorrect use of its products. Made in China.

This symbol on the product indicates that this product shall not be treated as household waste. Instead it shall be sent to the applicable collection point for the recycling of electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health. For more information about the recycling of this product, please contact your local city office.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

“NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to connect the interference by one or more of the following measures:  
-Reorient or relocate the receiving antenna.  
-Increase the separation between the equipment and receiver.  
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-Consult the dealer or an experienced radio/TV technician for help.”

## EXOCHARGE WIRELESS DESK

---

## USER MANUAL

**A** Wireless Charging Output

**B** Micro-USB Input

### Installation Instructions

1. Using the cable provided, insert the Micro-USB end into the Micro-USB input (B) of the wireless charger, and the USB-A end into your USB-A power adaptor (not included).
2. Place your wireless charging device on the wireless charging output (A), making sure that it is positioned in the centre of the wireless charging disc.

### Troubleshooting

To achieve fast charging, please ensure you are using a charger that is capable of supporting QC 3.0 charging protocol. For optimum charge speed, adjust your device so that it is aligned to the centre of the wireless charging output (A). Please ensure that the case on your phone is not affect the wireless charging by removing it and checking the performance. Some cases interfere with wireless charging if they contain metallic material or are overly thick.
