

Storm Interface AXS Series S60 Keypad

The FCC ID, IC ID and ETL mark are silkscreened onto the rear of the keypad so that it can be seen before the keypad is clipped onto the fixing plate.
The other information is captured onto a polyester label. A photo of the end result is shown here

Ident Label Artwork (font size is 5 point, label size is 25 x 12mm)

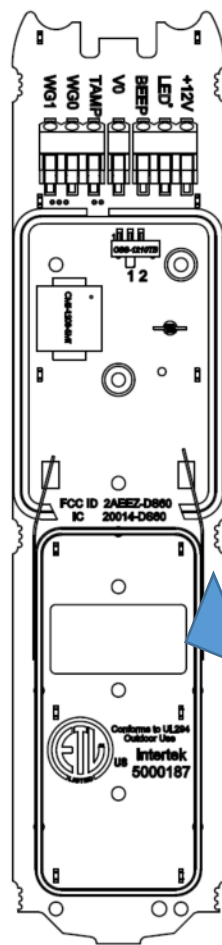

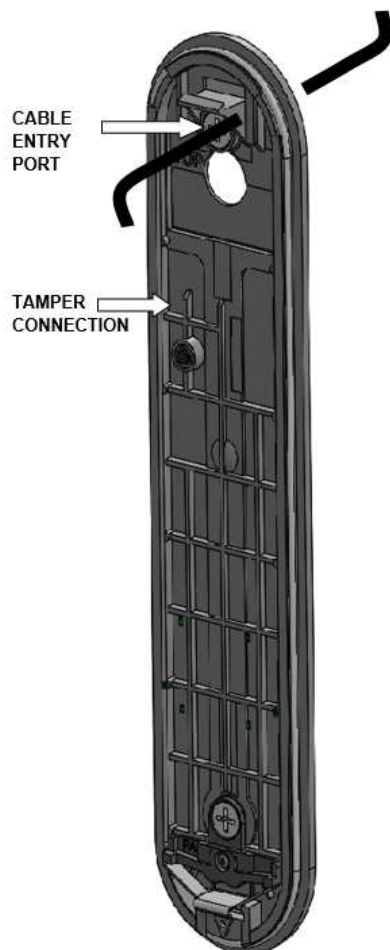

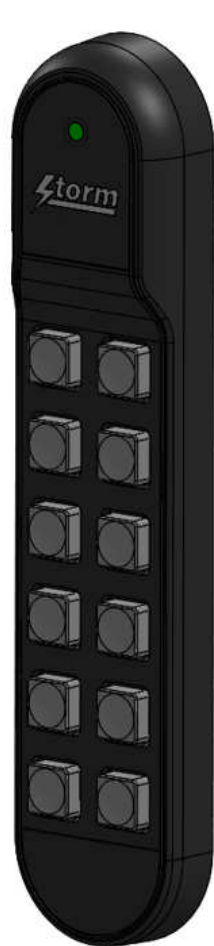

Label Material / Ribbon is a UL approved label system as used on all other Storm products.
Z-Ultimate 3000T labels with Zebra 5095 ribbon (UL File MH15633)
