Compliance with FCC Parts 15.203 & 15.517(a) Cover Letter

RE: FCC ID: 2AEFEIND-LR-2000R

The EUT is compliant with FCC Part 15.203 Antenna requirement based on the following:

The EUT has an external antenna. LR2000R has an intentional radiators that must be professionally installed.

The EUT is compliant with FCC Part 15.517(a) Technical requirements for indoor UWB systems based on the following:

- (1) The EUT is intended to operate in indoor. It is supplied by 48VDC which is provided by an AC power.
- (2) The EUT emissions are not intended to be intentionally directed outside of the building in which the EUT is located.
- (3) The EUT has an unique external antenna attached to it.
- (4) The EUT will be installed in such way that emissions will be directed towards the ground.
- (5) The system is designed in such a way that it transmits only when the intentional radiator is sending information.

Thank you,
