

19 January, 2016

To: Whom it may concern

Subject: **Cancellation request of pending applications:**
Tag 23 - FCC ID: 2AEFEIND-T23, Tag 22 - IC: 20086-INDT22
and LR-2000R - FCC ID: 2AEFEIND-LR-2000R

1. AeroScout Industrial hereby requests the cancellation of the following pending applications:
 - a. **Tag 23 - FCC ID: 2AEFEIND-T23**
 - b. **LR-2000R - FCC ID: 2AEFEIND-LR-2000R**
 - c. **Tag 22 - IC: 20086-INDT22**
2. AeroScout Industrial was created after Stanley Black&Decker acquisition of AeroScout Inc. to develop and market AeroScout products to industrial applications. This entity is completely separated from Stanley Healthcare which develops and markets the AeroScout products to the healthcare market.
3. AeroScout Industrial ceased its normal operation in July 2015 following Stanley Black&Decker decision.
4. Despite this business decision in July 2015, AeroScout Industrial still continued with the certification process of the above mentioned products, since there was a plan to continue developing and selling those products under a different business group in SBD.
5. In December 2015, the company finally decided to cancel the certification of those products following the fact that no other group in Stanley Black&Decker decided to continue marketing those products and their related technology.

Respectfully yours,

Daniel Aljadeff

CTO – AeroScout Industrial
