

Teslink®

Key/Dongle Receiver
User Manual

Thank you for purchasing this Teslink® Key/Dongle Receiver by Gill Electronics for your device.

PACKAGE CONTENTS

- Key/Dongle
- Owner's Manual

ABOUT THIS PRODUCT

Charge your phone without the hassle of connecting to a cable. Simply plug the Key/Dongle into your phone and place the Key/Dongle on top of any Teslink® wireless transmitter or any AirFuel certified Class 1, 2, or 3 transmitter in any orientation in the charging area and it will charge your phone. The blue light on the Key/Dongle indicates charging.

Read the user guide carefully and completely before using.

1. Plug your key into your phone.

USE

2. Place your phone or other AirFuel | Resonant equipped device on the Wireless Charger (Desktop) or Surface (Through-Surface Charger) to start charging. The screen of the device(s) being charged will indicate charging.

- Use this appliance only for its intended use as described in this manual.
- Never operate this appliance if it has a damaged housing. If it is not working properly or has been dropped or damaged, return it to the authorized dealer or distributor.
- Do not use the Key/Dongle Receiver on a metal table.
- If you have any implanted medical device it is recommended to stay 1M (3') away from the Key/Dongle Receiver.
- The Key/Dongle Receiver is designed for indoor use only. Do not use outdoors.
- Only set on dry surfaces. Do not place on surface wet from water or cleaning solvents.

Read the user guide carefully and completely before using.

FCC COMPLIANCE STATEMENT

These devices comply with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE:

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to

AIRFUEL ALLIANCE

The AirFuel Alliance is an independently operated, not-for-profit organization dedicated to building a global wireless charging ecosystem based on magnetic resonancetechnology.

Resonant technology will be used to turn almost any surface into a wireless charging surface capable of powering any Resonant-enabled mobile device.

This includes retail environments, airports, automobiles, and home and office furniture.

Resonant technology will also be integrated into other devices such as laptops and portable chargers, creating world's first truly mobile wireless charging power sources.
