1. Appearance and button

【Note】

To power on: Press and hold the power button, the system will enter the main interface.

To power off: In the main menu interface, press the power button for about 5 seconds to power off, the system will appear "power off" option, click "ok" and you can safely power off.

Lock screen: Press power button to lock screen or unlock screen.

Screenshot: Press the Power and Volume- buttons at the same time, and hold for 3 seconds.

When the power ran out, the system will power off automatically.

2. Start-up and shut-down:

Startup: To press the power key and the system will enter the process of Start-up .

Shutdown: Press the power key then pop-up options will be on the desktop, choose the option of Power off as shown below.

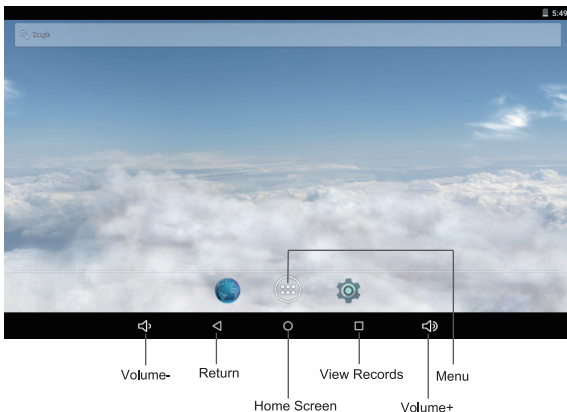

Click OK to shutdown

Sleep: In the normal state operation of the machine, press the power button, enter a state of dormancy, at this time, the screen will be closed. Another short press on the power button will resume to normal mode. When Super Pad is not in use you can start this function to reduce power consumption.

3. Desktop

After the normal startup of the system is completed, you can see the Android 5.1 desktop (below). The default desktop is consisted of quick search bar, status bar, and menu label icon.

The status bar is used to display the network status of current system, battery power, time and other information.

Quick search box is used by the typing keywords to do the Internet search. The main menu tag is in the right middle side of the screen, click it and the default menu bar can be expanded.

4. Buttons

Keys used in Android systems process:

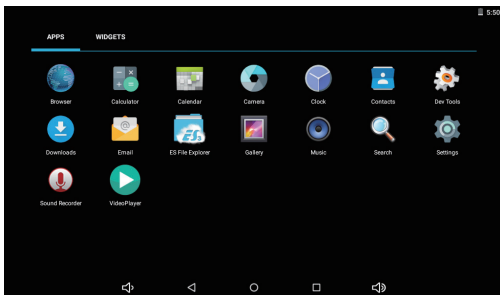

The volume keys: Volume+, Volume- in the taskbar can be used for Volume change. The power button: Press long time for switching machine. Press quickly to enter or leave the state of dormancy.

Menu key: Return or select the main interface.

Return key: Return to the last interface .

5. Main menu operation

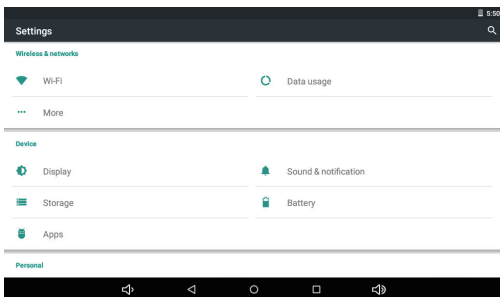

Press the main menu tag on the main menu, as shown below:

In the main menu, you can set the system, operate the existed application, install a new application, and start touch calibration, play music and video, browse webpage, play game and other operations.

System settings

Click on the main menu interface in the "Settings" icon, and then open the system settings interface, as shown below:

Select the relevant items to do corresponding operation, for example:

- * Wireless & network
- * Date & Time
- * Sound & Display
- * The equipment and so on

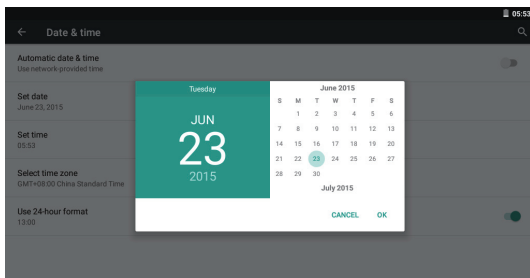

● Time / date setting:

In the interface of the setting, select "the time and date settings" to enter the date and time settings interface:

You can choose the automatic mode by using the network time.

You also can choose to set the date, select time zone, set time, select date format, set date and other information.

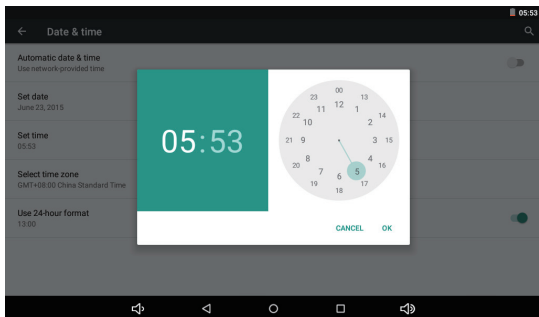

For example, choose the set date, as shown below:

Choose+: It means increase of 1 unit;

Select-: It means it reduces 1 unit;

You can also choose the number to enter the input pattern. Directly input the number, and then select the button done, as shown below:

Select "done". if the input number is legitimate, then the operation is successful, and the system will use the new settings.

● **Brightness:**

In the setting of the interface to select "display settings" into the display settings interface, roll drop-down lists to select "Brightness" as appeared in the following dialogue.

12. Photograph

Click on the "Camera" icon in the main menu and enter the "Camera" main interface as shown below:

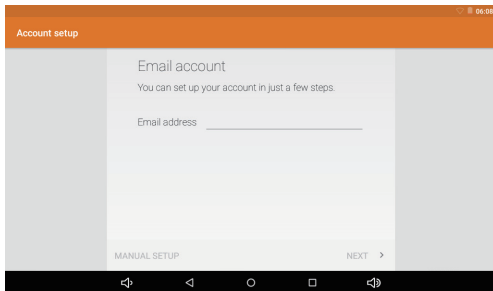

Click on shutter in the camera

13. E-mail

Click on the “e-mail” icon in the main menu to enter email client. Allocation of account information will be required the first time. As shown below:

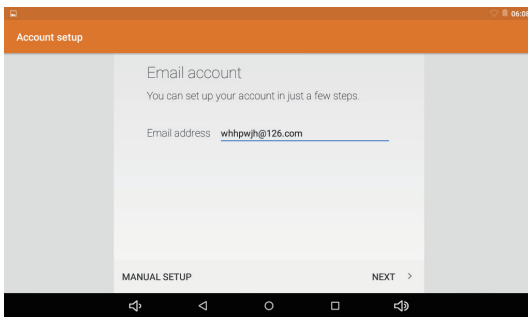

Email requires network support. Make sure that network link is normal. Here we take *whhpwjh@126.com* as an example:

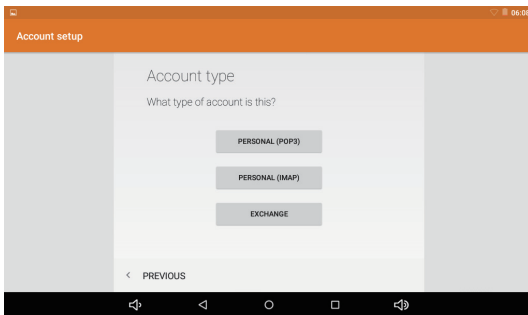

In the email address bar, enter your valid email address: *whhpwjh@126.com*

In the email address bar, enter your valid password:*****

Then you can choose the “next”, account type selection interface will appear as shown below:

Choose POP3 account. And the receiving service settings will appear as shown below:

Please according to each email provider's information to set different parameter, such as:

The POP3 server: Default is “126.com”, and should be modified as “pop.126.com”

The port number is “110”

Then select the “next”, you will enter the “inspection acceptance server settings”, if set up correctly, there will be a “foreign server settings” interface as follows:

The screenshot shows a mobile application interface titled "Account setup" with a status bar at the top displaying the time 06:08. The main section is titled "Incoming server settings" and contains the following fields:

USERNAME	whhpwjh@126.com
PASSWORD	***
SERVER	126.com
SECURITY TYPE	STARTTLS
PORT	110

Below these fields, there are two options: "Delete email from server" and "When I delete from inbox". At the bottom of the form are two buttons: "PREVIOUS" and "NEXT". The bottom of the screen shows a standard Android navigation bar with back, home, and recent apps icons.

In the column "name", input the name you want to display in the outgoing message, and then click “finish” button, you can enter the mail interface. It will load the mail automatically;

Select one of the column to be viewed in the message. You can do “Reply”, “delete”, “more reply” and other operations at the view bar.

14. External device

Using USB to connect the Super Pad and PC, the default connection mode is a synchronous mode.

You can drag the status bar to drop, appeared as the following interface:

Click  into the USB connection hints.

“USB connected”: It means that the external memory(SD) loading is completed, and you can see the corresponding letter in the PC terminal.

OTG use

Super Pad supports FAT32 format mobile devices such as U disk and mobile hard disk.

The plug-and-play connection method:

Use the OTG wire to connect the Tablet PC USB OTG and the external equipment .

Keyboard and mouse

Super Pad supports plug and play USB mouse and keyboard device.

15. Features

- * Screen: 7" Capacitive Touch Screen 1024x600 Resolution
- * Processor: Quad Core, Cortex A7, 1.3GHz
- * OS: Android 5.1
- * RAM: 1GB
- * Memory: 8GB
- * Wireless Connection: WIFI 802.11b/g/n
- * Dual Camera: Front 0.3MP, Rear 2.0MP
- * Support Skype Video Call
- * Support 1080P Full HD Video
- * I/O port : Micro USB

- * Play Store, Calendar, Calculator, E-mail
- * Picture Viewing, Music / Video Playback, Games
- * Supports Multi Languages
- * Battery: Built in 2800 mAh / 3.7V Li-ion, Rechargeable
- * Power Source: 5V \Rightarrow 1.5A

16. Accessories

Below items are included in your tablet package:

Super Pad Complete Device

- * Power Adapter
- * USB Cable
- * User Manual

Declaration of conformity

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
