WARNING!
 Helmet meets EN 1078 standard. Helmet for Pedal Cyclists. Constructed of expanded polystyrene. Helmets can be seriously damaged by substances such as solvents, paints, adhesives and cleaning solutions. Make no modifications. The helmet is made almost entirely of polystyrene and may be easily penetrated by sharp objects. No protective headgear can protect the wearer against all unforeseeable impacts and this unit will not eliminate all possibility of injury even when worn properly. A helmet subjected to severe impact shall be discarded and destroyed. This helmet must be of good fit and fastened securely under the jaw. Warning! This helmet should not be used by children while climbing or doing other activities when there is a risk of strangulation/ hanging if the child gets trapped with the helmet.

MADE IN CHINA

WARNING! No Helmet can prevent all head injuries. Even in very low-speed accidents, serious injury or death can occur.

- For best protection, follow manual fitting instructions: Helmet must fit snugly. Wear chin strap comfortably tight against the throat. Fasten buckle securely.
- Destroy and replace a helmet after impact. Protection may not be adequate in future impacts. Damage can be invisible.
- Do not clean with solvents, bleaches and strong detergents. They can damage helmet. Sometimes invisibly. Warning! This helmet should not be used by children while climbing or do other activities when there is a risk of strangulation/hanging if the child gets trapped with the helmet. Use mild soap and water only.
- Read the manual. **Serial No:** 2018/09 000001
