**Request for FCC certification and confirmation of equivalence: Nauticast B2**

Dear Sir or Madam,

as of July 2014 Nauticast GmbH bought all stock, spare parts, trademarks of and technical rights to the Nauticast B2 from 1st-Relief GmbH in their insolvency proceedings. 1<sup>st</sup>-Relief GmbH obtained an FCC approval for the Nauticast B2 on 03/27/2014 under FCC identifier Q8ZNAUTCASTB2 (see annex).

We are currently selling residual stock from this purchase and intend to restart production in the near future of an identical device. All future devices will be manufactured by the same factory according to the designs and with identical material to the specifications submitted by 1st-Relief GmbH. For the most part the components to be used were also bought from 1<sup>st</sup>-Relief GmbH. There will be only minor changes to the marketing appearance of the product. References to 1<sup>st</sup>-Relief GmbH will be removed.

BSH issued a Type examination certificate for the Nauticast B2 with document no. BSH/4542/001/4322808/14 last August (see annex).

We therefore kindly ask you to issue an FCC equipment certification for the Nauticast B2 to Nauticast GmbH.

Best regards,

Mag. Vinzenz Janik  
CFO
