11 Required Labeling on the Module

11.1 FCC labeling on the Module/SiP

Due to extreme size constraint, the FCC has granted an exemption for this SiP module.
Specifically, the FCCID is not to be affixed to the SiP (and not affixed inside the host product).
However, the other sections of this document are still required (ie affix the FCC ID in the product
user manual and on the outside of host product).

The FCC ID label will be placed in the User's Manual and on the outside of the host product as shown below:

MODULE LABEL

> ## TESLA MOTORS, INC.
>
> > **FCC ID: 2AEIM-QCA6234**
> > **IC: 20098-QCA6234**
> > **Model: QCA6234**
>
> Operation is subject to the following conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

HOST LABEL

> **Contains FCC ID: 2AEIM-QCA6234**
> **Contains IC: 20098-QCA6234**

NOTE: Please email questions regarding labeling rules to: rbaxley@teslamotors.com.

11.2 Rest of world labeling on the Module
