BATTERY SAFETY INFORMATION

IMPORTANT: Only adults should replace batteries

In exceptional circumstances batteries may leak that can cause chemical burn injury or ruin your product.

To avoid battery leakage:

- * Non-rechargeable batteries are not to be recharged.
- * Rechargeable batteries are to be removed from the product before being charged.
- * Rechargeable batteries are only to be recharged under adult supervision.
- * Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.
- * Do not mix old and new batteries.
- * Only batteries of the same or equivalent type as recommended to be used.
- * Batteries are to be inserted with the correct polarity.
- * Exhausted batteries are to be removed from the product.
- * The supply terminals are not to be short-circuited.
- * Dispose of battery(ies) safely.
- * Do not dispose this product in a fire. The batteries inside may explode or leak.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limit for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- * Reorient or relocate the receiving antenna.
- * Increase the separation between the equipment and receiver.
- * Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- * Consult the dealer or an experienced radio/TV technician for help.
