SUBJECT: Class II Permissive Change for FCC ID: 2AEM4-71213573, grant date: 03/23/2022

Dear Examiner,

This is to request a Class II Permissive Change application for the referenced device above.

The software change filed under this application is for the following:

1. Enable and implement unique power tables for Single-Input Single-Output (SISO) operation at chain 0 and Spatial Multiplexing - Multiple Input Multiple Output (SM-MIMO)/Space-Time Block Coding (STBC) with uncorrelated streams, in addition to the standard Cyclic Delay Diversity (CDD) mode power tables over 6GHz bands.
2. Optimize CDD waveform over 6GHz bands.

Except the changes described above, the design and hardware are identical to the original. Software security remains unchanged from the original application.

Sincerely yours,
