

<p>Solder Board-Component View 5</p>	 <p>A close-up photograph of a small green PCB component soldered onto a larger board. The component is rectangular and features a black integrated circuit. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mark at the bottom. The component is positioned between the 10 mm and 40 mm marks. The background is a blue textured surface.</p>
<p>Antenna View</p>	 <p>A photograph showing the antenna view of the PCB component. The component is a green PCB with two circular cutouts. A black ruler with white markings is placed to the left of the component for scale, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mark at the bottom. The component is positioned between the 10 mm and 40 mm marks. A red box labeled "BT Antenna" is positioned above the component, with a red line pointing to a small black component on the PCB. The background is a blue textured surface.</p>
