*****Bluetooth Music and Hands-free Phone Mirror comes with the following accessories:**

1.USB Cable

INTRODUCTION

Thank you for purchasing the S639 Music Mirror. We hope that you love it as much as we do! This 2-sided (true image and 5X) lit makeup mirror supports Bluetooth Wireless Technology, letting you connect with compatible Bluetooth devices to:

- ✧ Play music from your smart phone and other Bluetooth compatible devices
- ✧ Answer calls hands-free and talk through the built-in microphone

In addition to the Bluetooth feature, this mirror also includes:

- ✧ USB port that can be used as a USB flash drive or phone charger
- ✧ LED lit 5X magnification mirror

The best part is that you can do all this while you are doing your makeup!

We know how excited you are to start using your mirror, but before doing so, please take some time to read the user’s manual for safety information and to guide you through the set up process for your maximum enjoyment.

The contents stated herein may be modified from time to time as improvements are made to the product properties and functions.

SAFETY AND GENERAL INFORMATION

IMPORTANT INFORMATION FOR SAFE AND EFFICIENT OPERATION OF YOUR MUSIC AND PHONE MIRROR.

PLEASE READ BEFORE USING THIS PRODUCT.

To maintain optimal performance of this mirror:

- Do not use the mirror in areas of extreme temperatures or high humidity.
- Do not place the mirror near a heater or in direct sunlight.
- Keep it at a safe distance from the edge of the counter to prevent accidental falls.
- Keep away from splashing water.
- Never disassemble the product which would void the warranty

MIRROR PORTS

- 1.USB port to connect and play MP3 music from USB Flash Drive and for charging another devices when the Music Mirror is connected to power.
Note: Power charging rate is lower when other functions (ie. light, speaker) are in use.
- 2.DC power supply for connection with external adapter or computer.

NOTE - When the DC and USB ports are not in use, it is important that you leave the silicone cover on to protect them from any build-up of moisture or dust.

POWER SUPPLY!

This mirror is powered by use of the USB cable supplied to a standard AC power outlet.

Output requirement: DC 5V/1000-2000mA, Input: 100~240V~50/60Hz

BLUETOOTH PAIRING MODE

1. When the mirror is in Bluetooth mode, the blue LED light will flash indicating that it is ready for pairing.
2. The mirror will automatically search for available Bluetooth devices within range. Please make sure that your wireless device is close by and pairing is enabled.
3. Activate the Bluetooth function on your wireless device and follow instructions for pairing.
4. If the mirror does not locate your device automatically, press and hold the power button to restart until you hear "Bluetooth" from the mirror speaker, then check to see that "S639 Music Mirror" appears as a discoverable device on your device. This may take a few minutes.
5. Select to connect your device to the mirror.
6. The blue light will stay on indicating that the pairing is successful.
7. You are now ready to use your music mirror!

Note: Bluetooth wireless devices have a maximum range of 30 feet (10 m). Actual range will vary depending on frequency requirements, obstacles, interference, etc. For optimal quality of hands-free calls, it is advisable to maintain a maximum range of about 3 feet (1 m).

Remember...

1. Whenever you turn your music mirror on, it will automatically try to connect to the last device it was connected to.
2. If multiple devices have been successfully paired to the mirror, it will automatically connect to the last device connected.

SIMPLE GUIDE TO TROUBLESHOOTING

Here are some quick and easy steps to follow if you are having issues with your Music Mirror

Failure to establish Bluetooth connection	<ol style="list-style-type: none">1. In your settings, ensure that Bluetooth pairing is enabled on your mobile device.2. The mirror might still be connected to another Bluetooth device. Please ensure that all other devices are disconnected before attempting to establish a connection with a new device. Once this is done, pairing can be done as usual.3. If connection still cannot be established, restart your phone or Bluetooth device.
Bluetooth connection range seems shorter than normal	There might be obstacles between the Bluetooth device and mirror. Make sure all obstacles are removed for a clear path.
There is audible static and / or the music from your mobile device cuts out	<ol style="list-style-type: none">1 There might be obstacles between your mobile device and the mirror. Remove all obstacles for a clear path.2. The mobile device is too far away from mirror. Shorten the distance for optimal performance
No sound is coming from the mirror after Bluetooth connection has been established	<ol style="list-style-type: none">1.The volume on the mobile device is turned down. Make sure that the volume is turned up.2.The volume on the mirror is turned all the way down. Adjust the volume by using the volume up button “ ”
Unstable connection from multiple mobile phones and other Bluetooth devices	Only one Bluetooth connection can be established at one time. If you wish to connect another device to the mirror, you must first disconnect the current paired device.

If the above solutions have not corrected the issue and the mirror is still not working properly, please call our customer service line at *** for technical support**

MANUFACTURER'S ONE YEAR LIMITED WARRANTY

*** warrants this mirror against any defects that are due to faulty material or workmanship for 1 year from the original date of purchase. This warranty does not include damages to the product resulting from accident or misuse.

To obtain a replacement or have repairs done under this warranty, return the defective mirror prepaid by parcel post insured with proof of purchase and \$10.00 to cover cost of handling to *** at the address below.

Please allow 4-6 weeks for delivery.

This warranty gives you special legal rights and you may also have other rights which vary from state to state or province to province.

FCC NOTE: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: THE GRANTEE IS NOT RESPONSIBLE FOR ANY CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

For a Class B digital device or peripheral, the instructions furnished the user shall include the following or similar statement, placed in a prominent location in the text of the manual:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on,

the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure environment.

To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).
