## **I.Cautions on mobile phone use**

### **1.1 Interference**

All phones may be interfered, which affect phone calls.

### **1.2 Reasonable use**

Use only in the normal position. Do not touch the antenna area unnecessarily.

### **1.3 Qualified maintenance service**

Only qualified personnel may install or repair this product.

### **1.4 Water-resistance**

Your device is not water resistant. Keep it dry.

### **1.5 Emergency call**

If any emergency arises, dial 112/911 (or other emergency call number) for emergency help. Due to the nature of cellular networking, the success of emergency call is not guaranteed.

## **2 Precautions for use of battery**

**2.1** Do not dispose of batteries near or in a fire to avoid dangers.

**2.2** Do not dispose of batteries in the garbage. Dispose of batteries to assigned battery recycling center.

## **3 Cautions for children**

Keep your device out the reach of children in case of accidental injury caused by incorrect use of the device as toys.

## II. Keys and parts

- 1. Audio jack
- 2. P-sensor
- 3. Receiver
- 4. Front Camera
- 5. Light sensor
- 6. SIM Card Tray
- 7. LCD
- 8. Mic
- 9. USB port
- 10. Speaker
- 11. Volume key
- 12. Power Key
- 13. Rear camera
- 14. Rear sub camera
- 15. Flash light
- 16. Fingerprint

### **III. Start to use**

#### **1 To insert SIM card(S):**

Insert the SIM card correctly in the card slot(s) , suggest switch off the phone when you insert SIM card.

Insert the Micro SD card into the slot with the correct direction (See figure below), suggest switch off the phone when you insert SIM card.

Note: Use only compatible memory cards with this device. Incompatible memory cards may damage the card or the device and corrupt the data stored in the card.

## 2 Charge the battery

During charging, the battery indicator on the phone is a thunder icon. If the device is switched off during charging, there will still be a charging indication on the screen that shows the phone is being charged. If the device is overused when the battery is low, the charging icon might take some time to appear.

When the battery indicator on the screen says 'Battery is full', thunder icon will disappear, which means the completion of charging. If the phone is switched off during charging, the screen will display ' Battery is full '. It generally takes 4 hours to charge the battery. During charging, the battery, the device and the charger will get hot. This is normal.

Unplug the charger from the AC electrical outlet and disconnect the wiring between the phone and the charger after charging. .

**Cautions:** Charge the phone in a well ventilated place in which the temperature is between -10°C

to +55°C. Use the charger provided by the manufacturer only. The use of unconfirmed charger may lead to dangers and violate the manufacturer's warranty clause. If the temperature is too high or too low during charging, the device will automatically send a warning and stop charging to avoid damage to the battery or any danger.

#### **IV. Basic functions**

##### **1 Lock and unlock the screen**

Press power button to enter Sleep mode and meanwhile the screen will be locked; press power button again to wake up and then drag to up direction for unlock.

## 2 Make it yours

## **VI. FCC Warning**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that

interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue.

Device types Silver Max (FCC ID: 2AEPISILVERMAX) has also been tested against this SAR limit. The highest reported SAR values for head, body-worn accessory, and product specific (Hotspot) are 1.12 W/kg, 1.06W/kg, and 1.06W/kg respectively. The Max simultaneous SAR is

1.38W/kg. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

5G

For 5150-5250 and 5725-5850 frequency band,

Operations in the 5150-5250 and 5725-5850 band are restricted to indoor usage only.

5G:

Any emission is maintained within the band of operation under all conditions of normal operation.

The max. frequency stability is less than 20ppm.
