

Channel declaration of 2.4G WLAN

We, UAB Teltonika declare that this EUT (FCC ID: 2AET4RUTX11) doesn't have ad Hoc Mode function on non-US/Canada frequencies. For DTS part of this device, only channels **1-11** will be used in North America. The end-user has no possibility to select any other operating channels for devices marketed to the US/ Canada. Country code selection is disabled.

Should you have any questions or comments regarding this matter, Please have my best attention.

Sincerely yours,
