Re: FCC ID 2AET6-0610: Short and Long Term Confidentiality Requests

To Whom it may Concern,

Moon Winker L.L.C. ("Company") is hereby requesting confidential treatment for the Equipment Authorization for FCC ID No. 2AET6-0610.

The Company requests short term confidentiality for the following documents. See FCC Regulation Sections §§ 0.457 and 0.459. Please keep these documents confidential for at least 180 days after the grant date for FCC ID 2AET6-0610.

1. User manual;
2. External device pictures;
3. Testing photos; and
4. Internal device pictures

These documents contain Company's sensitive information and must be kept confidential until the actual marketing of Company's newest products. If the information were made public before the product's launch, Company would be unfairly disadvantaged.

Company also respectfully requests permanent confidentiality for the following documents. See FCC Regulations §§ 0.457 and 0.459.

1. Block Diagram;
2. Device Schematics; and
3. Operational Descriptions.

Company does not share the information in these documents without a signed non-disclosure agreement, because they highly confidential trade secrets. Company would be severely disadvantaged in the marketplace if this information were made known to the public even after the product is launched.

Please let me know if you have any questions.

Sincerely,

Jim Hixon
