American Certification Body, Inc.  
6731 Whittier Ave.  
Suite C110, 2110

Subject: Statement of professional installation of FCC ID:2AETC-1535103 and IC:12021A-1535103

Attn: Reviewing and certification engineers

According to FCC Part 15, Section 15.203, the requirement unique antenna connector does not apply.

“...Further, this requirement does not apply to intentional radiators that must be professionally installed, such as perimeter protection systems and some field disturbance sensors, or to other intentional radiators which, in accordance with §15.31(d), must be measured at the installation site. However, the installer shall be responsible for ensuring that the proper antenna is employed so that the limits in this part are not exceeded.”

We would like to state that this device is intended solely for professional installation. It is marketed to a and equipment installer and not to the general public. The end equipment installer is proved with all of the information necessary to ensure proper installation so that the antennas cannot be easily replaced.

The following 3 items demonstrate how installation and distribution of the equipment is controlled;

1. Marketing

example: This device is not sold retail, to the general public or by mail order. It is sold only to end equipment installers.

2. Installation

The equipment requires professional installation. It is designed only to work with specific agricultural vehicles and cannot be installed except by the manufacturer or a licensed dealer.

3. Application

The application is for use in agricultural equipment. The device will be installed such that it will not be accessible to the user of the agricultural equipment and can only be accessed by a licensed dealer,
