Date: 05/18/2020

Subject: Request for **Permanent Confidentiality**

**FCC ID: 2AETC-GALEO**

To Whom It May Concern:

In accordance with §0.457(d) and §0.459 of CFR 47, and KDB 726920, **Appareo Systems, LLC** hereby requests permanent confidentiality for documents filed under the following exhibit types:

1. Block Diagram
2. Schematic Diagram
3. Part List
4. Operational Description
5. Internal Photographs

These items contain detailed system and equipment description and related information about the product which **Appareo Systems** considers to be proprietary, confidential and a custom design which otherwise would not be released to the general public. Since this design is a basis from which future technological products will evolve, **Appareo Systems** also feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.

Appareo Systems requests permanent confidentiality for internal photographs, as the inside of the device will not be easily accessible to view the printed circuit boards. The interior enclosure is permanently sealed by a sonic welding process and would require destruction of the device to attempt to gain access to interior components.

We are aware that exhibit types *cover letters, attestations, label document, test reports, RF exposure information (SAR and MPE reports)*, cannot be requested to be classified confidential and are thus subject to publication, as will be documents of all other exhibits types for which we have not requested a confidentiality classification.

Best Regards,

A handwritten signature in blue ink, appearing to read "Nathan Schneck".
