SPECIFICATION

Frequency : 2402 MHz ~ 2480 MHz

Temperature : -20°C ~ 60°C

Power supply : DC 3.7 V

WARRANTY

ASOME is warranted to visionscape to be free of defects in materials or workmanship, for a period of one year from the date of purchase, under the normal use.

This limited warranty excludes damage resulted from improper care of handling, accident, moisture, water damage, lightning, fire, theft, or acts of God, which are not defects in materials and workmanship. If a product is defective, please return it to the place where you purchased the product with the receipt. If there is a covered defect, we will repair or replace the product free of charge or issue a refund at our discretion. The product is provided "AS IS AND WITH ALL FAULTS" and visionscape hereby disclaims all other warranties, express or implied, including the implied warranty of merchantability, fitness for a particular purpose, and non-infringement. visionscape makes no provision or failure to provide support or other services, information, software, and related content through the product or otherwise arising out of the use of the product.

INFORMATION TO USER

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC COMPLIANCE STATEMENT

This device complies with Part 15 of the FCC's Rules. Operation is subject to the following two Conditions:

1. This device may not cause harmful interference.

2. This device must accept any interference received, including interference that may cause undesirable operation.

WARNING Any changed or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
