## **Product Specifications**

Product Name	SoundCup-X
Bluetooth Version	4.2
Bluetooth range	10m (TWS Distance around 2~5m)
Driver Unit	4Ω 12W=6Wx2
Battery Capacity	2200mAh
Audio Input	Bluetooth / 3.5mm AUX IN
Working time	7~8Hrs (70% volume)
Charging time	4~4.5Hrs (Input: 5V=1A)
S/N	≥75dB
NFC	Support
Handsfree function	Support
Dimension	71 x 73.6 x 169.6mm

## Frequently Asked Questions

Q: What kind of charger should we use for the speaker?
A: All common USB chargers can be used, while we suggest the ones above 5V/1A.

Q: What if there is noise or discontinuous sound when playing?

A: The speaker can be normally used within 10m under no obstruction environment. If it is over 10m or with obstruction, there might be noise or discontinuous sound.

Q: Why will the speaker shut down automatically when it is working?

A: When there is no bluetooth pairing or AUX IN within 10 minutes, the speaker will shut down automatically to reduce power consumption.

Q: The speaker cannot connect the once-paired cellphone.

A: First, remove the speaker's pairing name from the cellphone's Bluetooth list and then short press the Bluetooth Disconnection Button to restart paring mode.

Q: What is the working sequence of the speaker?

A: The priority is AUX IN input, phone call in Bluetooth mode and then playing music Bluetooth mode.

Q: The speaker cannot be started up in a normal situation.

A: Please plug in the charger and try in a few minutes.

\* This speaker supports mobile phones and tablet PCs etc. Here this User Manual is illustrated based on mobile phones.

Note: NFC is only used to remember bluetooth addresses and does not need to be tested.

Federal Communications Commission (FCC) Statement. This device complies with part 15 of the FCC Rules. Operation is subject to the following twoconditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received,

including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide Reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one ormore of the following measures:

- •Reorient or relocate the receiving antenna.
- •Increase the separation between the equipment and receiver.
- •Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- •Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by **Shenzhen Trendwoo Tech. Co., Ltd.** may void the FCC authorization to operate this device. Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

#### RF exposure statement:

The device compliance RF exposure requirement and can installed and used without restriction
