## Adding kisslink as a Range Extender

(Ideal for expanding WiFi coverage)

① Plug in kisslink Pro to a power source within your existing WiFi network and wait for the LED light always on after flashing for about 60 seconds.

② Follow the steps on page 3 to authenticate and connect your device to the kisslink network.

③ A setup page or notification will appear directly on your device once you're connected.If not, please open up a browser and hit refresh on any page. Select the existing network and enter the password.

④ Wait 5~30 seconds for kisslink Pro to configure. kisslink Pro will be ready to provide additional WiFi range!

## Connecting Mobile Devices

① Open up the WiFi selection page on your device and make sure WiFi is turned on.

② Hold your device close to the kisslink Pro.

③ Wait for the 'beep' and then join the open kisslink network listed on your device. Your device is now connected!

**kisslink**

---

## Connecting Stationary Devices
### (laptops, desktops, smart appliances, etc.)

① Open up the WiFi selection page on your device and select to join the open kisslink network.

② Press the Zen Button on kisslink Pro.

③ Your device is now authenticated. Rejoin the open kisslink network on your device to connect.

*If physically pressing the Zen Button is inconvenient, there are two other ways to connect stationary devices:
1. Download the kisslink App: Virtually click the Zen Button displayed on the homepage instead.
2. Download the kisslink App: Create a traditional password–protected network and connect devices via a WiFi password.

---

## Linking Multiple kisslink Routers
### (Ideal for creating a complete WiFi solution)

① Ensure that your device is connected to the existing kisslink network.

② Plug in your additional kisslink(s) to a power source and wait for the 'beep' and the LED light always on after flashing for about 30 seconds.

③ Authenticate your device by holding it close to kisslink Pro and wait for a 'beep'.

④ The new kisslink will automatically form a connection with the existing kisslink network within 2 minutes and expand its coverange!
