Attn: Director of Certification

Subject: Models Differences Declaration FCC

We hereby request the following models listed under FCC: 2AEYU-R20V3:

For Models:

- Ranger® R20SS; P/N: 921-0041-7X
- Ranger® R20SS-3D; P/N: 921-0041-6X
- Ranger® R20SS-U; P/N: 921-0041-8X

where X represents the color, 1 = TAN, 2 = GREEN, 3 = White.

We declare that these models are electrically the same. They share the same transmitter with the same output power level. The differences in these models are strictly in the transmit and receive antenna patterns that allow:

- The R20SS to have longer detection range,
- the R20SS-U to have a broader elevation coverage and
- the R20SS-3D to have the same detection range as the R20SS-U but with height finding capability.

Sincerely,

Dated this 29th **Day of** June 2021
