Let us know what you think... BOSMA-X1 **QUICK START GUIDE CUSTOMER SERVICE** support@bosmasmarthome.com 1(800)-976-0881 www.bosmasmarthome.comThe user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help. FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. **Notification** We always strive for excellence in the This step-by-step guide will provide you Notifications will be pushed to APP usability of our products, with intuitive apps, simple installation, and a US-based with the necessary information to get once motion alert, sound alert and your camera connected and working within PIR sensor are triggered. customer service team that is always a few minutes.
