HelloBaby®

HD 720p

2.4GHz Digital Wireless Video Baby Monitor

1. SAFETY INSTRUCTIONS

Read this user manual carefully before using the product. The product is not intended for use by children under 16 years of age. The product is not intended for use in areas where it may be exposed to high humidity, such as bathrooms, showers, swimming pools, and outdoors. The product is not intended for use in areas where it may be exposed to high temperatures, such as saunas and hot tubs. The product is not intended for use in areas where it may be exposed to high altitudes, such as mountains and ski resorts. The product is not intended for use in areas where it may be exposed to high vibrations, such as airplanes and ships. The product is not intended for use in areas where it may be exposed to high electromagnetic interference, such as power lines and radio towers. The product is not intended for use in areas where it may be exposed to high magnetic fields, such as MRI machines and power transformers. The product is not intended for use in areas where it may be exposed to high levels of radiation, such as nuclear power plants and medical facilities. The product is not intended for use in areas where it may be exposed to high levels of noise, such as airports and construction sites. The product is not intended for use in areas where it may be exposed to high levels of smoke, such as fireplaces and cigarettes. The product is not intended for use in areas where it may be exposed to high levels of dust, such as construction sites and dusty environments. The product is not intended for use in areas where it may be exposed to high levels of salt, such as saltwater pools and salt mines. The product is not intended for use in areas where it may be exposed to high levels of acid, such as car batteries and acid rain. The product is not intended for use in areas where it may be exposed to high levels of alkaline, such as bleach and oven cleaners. The product is not intended for use in areas where it may be exposed to high levels of oil, such as motor oil and cooking oil. The product is not intended for use in areas where it may be exposed to high levels of grease, such as grease traps and oil pans. The product is not intended for use in areas where it may be exposed to high levels of paint, such as paint cans and paintbrushes. The product is not intended for use in areas where it may be exposed to high levels of solvents, such as nail polish remover and paint thinner. The product is not intended for use in areas where it may be exposed to high levels of flammable liquids, such as gasoline and alcohol. The product is not intended for use in areas where it may be exposed to high levels of explosive materials, such as fireworks and dynamite. The product is not intended for use in areas where it may be exposed to high levels of radioactive materials, such as uranium and plutonium. The product is not intended for use in areas where it may be exposed to high levels of toxic materials, such as lead, mercury, and asbestos. The product is not intended for use in areas where it may be exposed to high levels of biohazardous materials, such as bacteria and viruses. The product is not intended for use in areas where it may be exposed to high levels of bioactive materials, such as pharmaceuticals and chemicals. The product is not intended for use in areas where it may be exposed to high levels of bioactive materials, such as pharmaceuticals and chemicals. The product is not intended for use in areas where it may be exposed to high levels of bioactive materials, such as pharmaceuticals and chemicals.
