I ONIA APP Function

The color selection

Users can directly control the color of the lighting with the onia color and the RGB color picker.
The onia color is composed of 14 colors which are the most influential to human and it is able to make the color combination of 196 with the top and the bottom. The brightness with 5 levels of the top and the bottom are supplied. The RGB color picker supplies the LED full colors with 16million RGB colors and users can directly select the colors they want. Users can store their own colors in Favorite mode.

Mode function

Two modes are supplied : Theme mode and Nature mode.
There are 6 kinds of Theme modes using conveniently in daily life and 6 kinds of Nature modes containing natural lights with dimming function.

Today's Color

It is a function to recommend the onia colors automatically according to the result of Psychological Consulting and Biorhythm. In the  setting mode, Psychological Consulting can be gotten and in case of Biorhythm pls, input the date of birth. It can be used after the setting.

Wake-up function and Sleep function

Wake-up function is to turn on the light automatically at the time you want. e.g) morning call. Sleep function is to turn off the light automatically at the time you want. These two functions are able to be set up in Timer mode.

The Fun function

The color of the light can be changed with fun by shaking smart phone.

Sensor function

The color of the light is changed by the response of the vibration sensors embedded in the top and the bottom of the lighting parts. The color of the light is changed if proper vibration is given to the lamp by tapping the lighting parts with pencils, sticks or fingers (especially nails). The color change can be done respectively in the top and the bottom of the lighting parts.

FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

IMPORTANT NOTE:

FCC RF Radiation Exposure Statement:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

CAUTION

To reduce the risk of electric shock, do not remove the top cover (or the rear section).
No user serviceable parts inside, refer servicing to qualified personnel.

This symbol, wherever it appears, alerts you to the presence of uninsulated dangerous voltage inside the enclosure-voltage that may be sufficient to constitute a risk of shock.

This symbol, wherever it appears, alerts you to the important operating and maintenance instructions in the accompanying literature. Please read the manual.

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this equipment near water.
- 6) Do not use near any heat sources such as radiators, heat resistors, stove, or other equipment that produce heat.

CAUTION
**RISK OF EXPLOSION IF BATTERY IS REPLACED
BY AN INCORRECT TYPE.**
**DISPOSE OF USED BATTERIES ACCORDING
TO THE INSTRUCTIONS**
