

## Differences Description

We **Motic China Group Co., Ltd.** state:

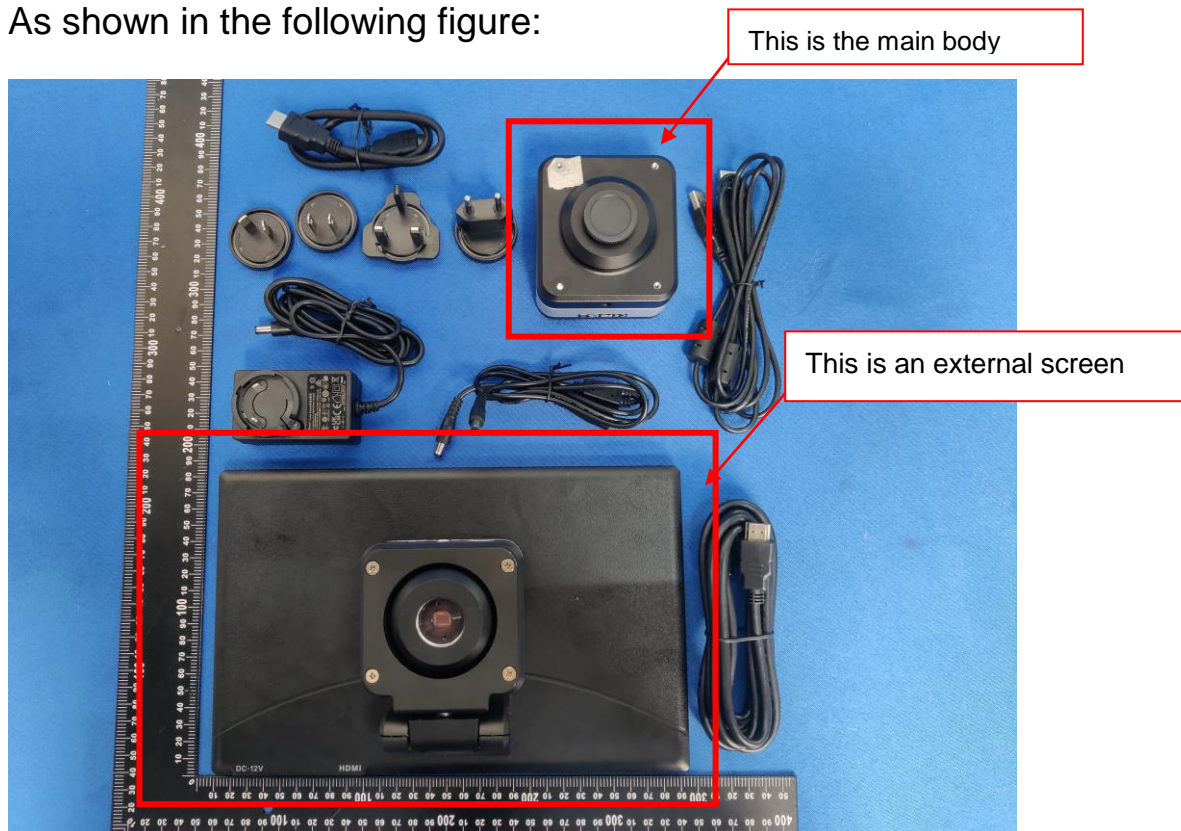

Product name: Moticam

Model: Moticam 4000X, Moticam 4000X BMH

All models of PCB design, software, electric circuit, radio frequency characteristics, appearance are consistent.

The two models are the same main body, and the motherboard is the same. The Moticam 4000X BMH adds a display screen and a display connection bracket on top of the Moticam 4000X, making the camera part completely identical.

As shown in the following figure:
