FCC Class II Permissive Change Request Letter

Date: 13 July 2016

To: Federal Communications Commission
7435 Oakland Mills Road, Columbia, MD

RE: FCC Permissive II Change Request for Company: **SAM JIN CO., LTD**
FCC ID: **2AF4S-STH-ETH-250**

We are submitting an application for a class II permissive change to the FCC approval of the Company name: **SAM JIN CO., LTD**, product description: **Hub**
(FCC: **2AF4S-STH-ETH-250**, Original Grant Date: **26 February 2016**).

When proceeding Korea KC and EU R&TTE approval, to have better margin on spurious requirement, we have re-artworked PCB pattern.

Schematics and parts are same as before, we re-designed PCB pattern only.
It affects on the both Zigbee and Bluetooth indirectly.

According to section 2.1043, we hereby proceed permissive change.

If you have any question, feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "SangSoo Kim".

NAME : SangSoo Kim
