Welcome to your Link

English

Before you start:

- The SmartThings Link only works with compatible routers. Go to router.v-ho.me to find out if your router is compatible.
- Make sure that the router is connected to the network and Wi-Fi is turned on.

Setup

A V-Home service subscription is required for your SmartThings Link to work. Follow the V-Home Quick Start Guide in order to activate the subscription and devices. However, if you have any issues with the setup of the SmartThings Link or are looking for more details, you may want to check these steps below:

- Connect your SmartThings Link to your router using the supplied USB cable. The LED on your SmartThings Link will start blinking blue while the hub software is being downloaded to your router. Once the download and installation have been completed, the LED will blink red and green to indicate that the device is ready to be added to your Samsung account.
- Download and install the free SmartThings app for Android or iOS on your smartphone. Open the app and sign up or sign in to your Samsung account.
- If your smartphone is connected to your Wi-Fi router, the SmartThings app will automatically prompt you to add the SmartThings Link. If not, you can add the SmartThings Link in the "Add device" section of the app.

Follow the step-by-step instructions in the SmartThings app to complete the setup of your smart home.

Hint: During this step, an automatic software update may be required and could take a couple of minutes. If, after a couple of minutes, the SmartThings hub has not been discovered in the SmartThings app, please disconnect the SmartThings Link from the USB and start again from step 1.

If you have any difficulty setting up your SmartThings Link, please visit **smartthings.v-ho.me** for assistance.

Hint: If you have any difficulty setting up your V-Home subscription, refer to faq.v-ho.me for help.

Suggestions

There are many ways that you can use a SmartThings Link as the brain of your smart home:

- Monitor, control, and help secure your home.
- Automate your lights, control your home's temperature, and save money.
- Teach your home a few new tricks and make life a little bit easier.

Visit ideas.v-ho.me for more ideas, tips, and special offers.

Works with SmartThings

SmartThings works with a wide range of connected devices, including lights, cameras, locks, thermostats, sensors, and more.

Look for the **Works with SmartThings** label next time you're buying a connected device for your home, or visit **SmartThings.com** to see the full list of compatible devices.

Safety Instructions

This equipment complies with radiation exposure limits set forth for an uncontrolled environment This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Correct disposal of this product

(Waste Electrical & Electronic Equipment) (Applicable in countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product, its electronic accessories (e.g. charger, headset, USB cable), and batteries should not be disposed of with other household waste

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Where marked, the chemical symbols Hq. Cd or Pb indicate that the battery contains mercury. cadmium or lead above the reference levels in EC Directive 2006/66. If batteries are not properly disposed of these substances can cause harm to human health or the environment. Household users should contact either the retailer where they purchased this product, or their local goverment office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal

One (1) Year Limited Warranty

SAMJIN, Inc. warrants this product (the "Product") against defects in materials and/or workmanship under normal use for a period of ONE (1) YEAR from the date of purchase by the original purchaser ("Warranty Period"). If a defect arises and a valid claim is received within the Warranty Period, then as your sole remedy (and SAMJIN' sole liability). SAMJIN will at its option either 1) repair the defect at no charge, using new or refurbished replacement parts, or 2) replace the Product with a new product that is functionally equivalent to the original, in each case within 30 days following receipt of the returned Product. A replacement product or part, assumes the remaining warranty of the original Product. When a Product or part is exchanged, any replacement item becomes your property and the replaced Product or part becomes SAMJIN' property.

Obtaining Service: Please contact directly the reseller of this product where you bought in your local area or service agent of reseller.

Samsung SmartThings Use of Free and Open-Source Software

This document contains licensing information relating to the use of free and open-source software (FOSS) with or within the Samsung SmartThings Link software. Any terms, conditions, or restrictions on FOSS included within the Samsung SmartThings Link software that are not included within the original FOSS licenses are offered and imposed by Samsung SmartThings alone. The authors licensors, and distributors of the FOSS disclaim all express or implied conditions. representations, and warranties relating to the FOSS and any liability arising from use and distribution of the FOSS. A document containing the complete and current list of FOSS packages used in Samsung SmartThings Link software and mobile applications can be found here: www.SmartThings.com/FOSS

The document at the URL above identifies the FOSS packages used in the Samsung SmartThings Link software, the FOSS licenses that Samsung SmartThings believes govern those FOSS packages and copyright and license notices associated with Samsung SmartThings's use of the FOSS. While Samsung SmartThings has sought to provide complete and accurate licensing information for each FOSS package. Samsung SmartThings does not represent or warrant that the licensing information provided herein is correct or error-free. Recipients of the product have the option to investigate the identified FOSS packages to confirm the accuracy of the licensing information provided herein. Recipients are also encouraged to notify Samsung SmartThings of any inaccurate information or errors found in these notices.

Certain FOSS licenses, such as the GNU General Public License, GNU Lesser (or Library) General Public License, and Mozilla Public License, require Samsung SmartThings to make available to recipients the source code corresponding to FOSS binaries distributed under those licenses. Users who would like to download source code used by Samsung SmartThings under those licenses can do so by logging in with their Samsung SmartThings account at SmartThings.com.

Users with questions or concerns regarding Samsung SmartThings use of Free or Open-Source Software can contact us via email at: Support@SmartThings.com. Deleting a Location (Home, Office, etc) in the SmartThings app will cause all Z-Wave devices to be disconnected from the SmartThings Link, requiring them to be excluded and re-included.
