Side B

The diagram shows a side view of the remote control. It has two earbuds at the top. The main body is a vertical oval shape. On the left side, there are two buttons: a '+' button and a '-' button, both with arrows. Below these is a small dot. At the bottom of the oval is a circular button with a power symbol (a circle with a vertical line). To the right of the oval, there are two labels with lines pointing to the buttons: 'Volume Track button' pointing to the '+' and '-' buttons, and 'Power/ON/OFF, Hang Up, Play/Pause button' pointing to the bottom circular button.

These earbuds have an internal rechargeable battery. The battery must be fully charged prior to use. Charging time is approximately 1hr. Your earbuds cannot be used while charging.

☎ Phone button

- When playing music, press and release to pause music; press and release again to play music.
- When receiving an incoming call, press and release to answer; press and release to end the call.
- Press twice quickly to call the last number dialed. When playing music and a call comes in, the music will pause and you will hear a ringtone. The music will resume when the call is ended.

+ Volume up/track forward

- Press to increase the volume.
- Press and hold to play next track.

- Volume down/track back

- Press to decrease the volume.
- Press and hold to play previous track.

The button functions may vary per device.

CHARGING YOUR BE10

Make sure your BE10 is fully charged before using it for the first time.

- Gently plug the Micro USB end of the included charging cable into the charge port of the control box.
- Plug the USB end of the cable into a powered USB port, such as a computer, laptop, or a USB AC adapter (not included).

- The LED indicator located on the control box will glow red. Once the headset is fully charged, the LED power indicator will turn off.

- The LED indicator will light up red while charging even if the BE10 is off. You cannot charge your BE10 while listening to music.

CONNECTING YOUR DEVICE

Adjust the volume of your device and the BE10 to a comfortable volume before use.

- Press and hold the power button for a few seconds and the unit will enter into pairing mode.
- Open the settings on your Bluetooth device (Bluetooth must be enabled).
- Select "BE10" from the list of Bluetooth devices.
- Once paired, the LED indicator light will flash blue slowly.
- To turn off the BE10, press and hold the power button.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. in portable exposure condition without restriction.
