User Manual Information for Flex Wireless Charging Pad Module

Flex Automotive USA Inc
27755 Stansbury Blvd, Ste 300
Farmington Hills, MI 48334, USA

Vehicle Manual

The Flex product Wireless Charging Pad Module (WCPM) will be provided directly to the vehicle manufacturer and not to an end-user. The vehicle manufacturer will assemble the WCPM as part of the vehicle. Therefore, Flex will not be supplying an end-user manual. Flex has provided the following text to vehicle supplier for their consideration to be included in their vehicle's manual.

FCC ID: 2AF5R-52192780

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To ensure compliance with FCC RF exposure requirements this device must be installed to provide a minimum of 20cm between the device and people.

Vehicle Installation

The WCPM is permanently installed into the front center console area in an automotive vehicle and is only removable by a qualified service technician. The WCPM is not designed to be operation outside of the vehicle. The WCPM mounts on the back side of the A-surface using four screws and designed to connect to the vehicle wire harness and draw power from vehicle battery. LIN bus communications on the vehicle bus harness are required for the WCPM to operate.
