

BRAGI

Declaration Letter

Date: Dec 13, 2016

TO: Federal Communication Commission

To Whom It May Concern:

We, the undersigned, hereby declare the *engraving the FCC ID on the earphones* of "The Dash" B1001-01 would be difficult because of:

- 1.- Limit of space: the FCC ID cannot easily fit on (Please refer to the drawing below where the police height is 1.4 mm)*
- 2.- Kind of surface: It is difficult to engrave or print a surface that is not flat like the one of the earphones*
- 3. Quality reasons: we try to make the Dash as splash proof as possible, and if we do to engrave on the earphone, would affect this aspect and most probably others.*

And, besides the FCC ID, there are also no other markings to be printed or engraved on the earphones as well.

At least, please kindly allow us to show the FCC ID: 2AF5TB1001L and FCC ID: 2AF5TB1001R in the user manual (Quick Start Guide) in the first page with a height of 1.4 mm.

Yours Sincerely,

Alicia Charennat
