Subject: RE: Bluetooth earphone technology consult

Hi Peter

If the ear buds can only be charged using the docking unit, then you can locate the certification and model number on the bottom of the docking unit. If the ear buds can be charged by a cable, on their own, then each bud will need to be labeled.

Only one model number is required if both ear buds are sold together.

Subject: Bluetooth earphone technology consult

Dear Sir/Madam,

I am an engineer from SGS test lab. I got a project to apply IC certification. Please find attached for the user manual and picture of the sample. Main sample contains left earphone, right earphone and charge docking

My questions are:

- 1) Can I use one model number(ID number) for the project?
- 2) Can I locate the label in the bottom of the docking?
- 3) If I need to use two model number, Can I locate both of their label in the bottom of the docking?

Best Regards,

Peter Geng
