PRODUCT DESCRIPTION

GameSir GB-98K is inspired by the Spetsnaz Helmet of PUBG, which is originated from the Rys'-T helmet of Soviet Special Forces. It uses 34mm composite vibrating diaphragm, 40mm full-range driver with a spherical design. The bass booster forces low-frequency sound wave to rebound from desk and spread around. The design attains 360° ground boosting sound effect with excellent bass performance and powerful stereo. 4.0 Bluetooth renders a stable connection of over 22.97 ft, while 500mAh battery ensures a continuous playing time of 2.5-3 hrs. RGB indicator lights hidden under the aluminum alloy mask flashes along with music rhythm. The hanging hole makes it easily portable. Wherever you are, GameSir GB-98K can provide you with powerful sound effects.

CONNECTION

- Long press power button until you hear a notification sound from GameSir GB-98K Bluetooth speaker. When the RGB indicator light stays at solid blue, GameSir GB-98K Bluetooth speaker is ready to be connected.
- Turn on Bluetooth of your device, search GameSir GB-98K Bluetooth speaker, pair and connect until RGB indicator light cycles. GameSir GB-98K Bluetooth speaker is successfully connected.
- Start playing music on your device and enjoy it from GameSir GB-98K Bluetooth speaker.

- * Press control button to pause while music is playing. Press again to resume.
- * When GameSir GB-98K Bluetooth speaker is connected, quick press power button twice to turn off/on RGB indicator light.

CHARGING

When GameSir GB-98K Bluetooth speaker is connected, RGB indicator light flashes alternately.

When GameSir GB-98K Bluetooth speaker is charging, charging indicator stays at solid red.

When GameSir GB-98K Bluetooth speaker is in low power condition (15% and below), charging indicator stays at solid red.

When GameSir GB-98K Bluetooth speaker is fully charged, charging indicator turns off.

* Lighting effects of charging indicator and RGB indicator light have no conflict and can be produced independently.

SAFETY GUIDE

To ensure your safety while using GameSir GB-98K Bluetooth speaker, we strongly recommend you to follow the instructions below:

- Please keep GameSir GB-98K Bluetooth speaker within safety range in case of device damage or personal injury caused by falling.
- Avoid direct eye-contact or irradiating others' eyes with the LED light beam of GameSir GB-98K Bluetooth speaker.
- In case of any usage or operation problems that can't be settled, please disconnect GameSir GB-98K Bluetooth speaker and visit <https://gamesir.hk/> for help.
- DO NOT disassemble the product by yourself, otherwise warranty might be invalid. DO NOT fix the product at any time nor operate it under abnormal current load.
- Keep the product away from liquid, fire or humid environment. Use the product only under specified temperature range (32°F to 104°F/ 0°C to 40°C). If ambient temperature is out of range, please disconnect the product, power it off, and wait until the temperature stabilizes within range.
- For the sake of your health, please use GameSir GB-98K Bluetooth speaker under moderate volume.

FCC Caution.

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Changes or modification warning.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
