

Baby Monitor INSTRUCTION MANUAL

Thank you for purchasing our baby series products. We kindly recommend you to read the following instructions before using this product.

FCC WARNING

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

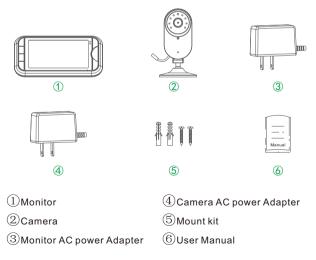

The device has been evaluated to meet general RF exposure requirement.

The distance between user and products should be no less than 20cm.

WARNING

- 1. Please keep the product away from the baby more than 3feet (1meter).
- 2. Please place the product in a dry place to prevent short circuit caused by damp.
- Please use Ac adapter(s) provided by us only. We do not recommend to use Ac adapters and charging cables from other brands.
- 4. This product is not medical equipment. Check your baby's activities regularly as this product is not designed for supervision but for assisting your supervising.
