

User Manual

Parameter

Bluetooth Version: V3.0	Types of Batteries: CR2032
Active Range : ≤ 10 m	Capacity: 210mAh
Working Frequency: 2.4 G	Standby Current: 55UA
Working Current: 1.5 MA	Weight: 12g
Size: 60*26.4*7 mm	Support Android & IOS Systems

Operation

1.On/Off

Toggle power switch to turn on and off. When powering on, indicator lights will flash and the shutter will search for a Bluetooth connection.

2.Bluetooth Pairing

Select the shutter on your Bluetooth connection to pair it with your mobile device.

3.Taking Photos

Make sure your mobile device is paired with the shutter via Bluetooth connection. Open the camera app. To take a photo, short press on the shutter button.

4.Sleep Mode

The shutter will go into sleep mode if not in use after 5 minutes. Simply short press the shutter button to wake up from sleep mode.

Out of Range

5.The shutter will go into sleep mode if it goes out of the Bluetooth connection range. Once back in the connection range, simply short press the shutter button and the shutter will reconnect automatically.

6.Cancel Pairing

To cancel Bluetooth pairing, long press the shutter button and it will be disconnected from your mobile device.

FCC Information and Copyright

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,

uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference

to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is

encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
