FCG Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to a nearby receiver. These limits do not guarantee that the equipment will not cause harmful interference to a nearby receiver. If the equipment does cause harmful interference to a nearby receiver, you may need to take one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that which the receiver is connected to.
- Consult the dealer or an experienced radio/television technician for help.

Caution: Changes or modifications to this device not authorized by manufacturer could void your warranty and void your authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) The device may not cause harmful interference, and (2) the device must accept any interference received, including interference that may cause undesired operation.

The device has been tested to meet general RF exposure requirements. The device can be used by people, however caution without restriction.
