Electrostatic Air Filter | FPO Spanish

DO YOU KNOW WHAT'S IN YOUR AIR?

Pollutant levels may be two to five times higher in indoor air than outdoor air. That's why it's important to choose the right air filter and help keep your home's air cleaner for you and your family.

Do you know what's in your air? Los niveles de contaminantes pueden ser de dos a cinco veces más altos en el aire interior que en el aire exterior. Es por eso que es importante elegir el filtro de aire adecuado y ayudar a mantener.

GET A CLEANER, FRESHER HOME WITH FILTRETE™ FILTERS

Advanced microfiltration captures millions of particles you can't see, while specialized filter media allows for optimum airflow.

Get a cleaner, fresher home with Filtrete™ Filters. La microfiltración avanzada capta millones de partículas que no se pueden ver, ayudando a reducir los contaminantes del aire interior, mientras que.

FILTRETE™ SMART APP FEATURES

Filter Life

Track the life of your Filtrete™ Smart Air Filter based on air flow and usage.

Track the life of your Filtrete™ Smart Air filter based on air flow and usage.

Filter Type & Size

Take a quiz to find out which filter is right for you and get help remembering the right size and type.

Activate & Pair

1. Download the Filtrete™ Smart app on your mobile phone and create account.

1. Download the Filtrete™ Smart app on your mobile phone and create account.

2. Remove plastic packaging and label from filter, leaving cardboard frame intact. Remove the battery tab to activate the sensor.

2. Remove plastic packaging and label from filter, leaving cardboard frame intact.

3. Enable your phone's Bluetooth® setting, then follow the step-by-step instructions in the Filtrete™ Smart app to pair your filter with your phone.

3. Make sure your phone's Bluetooth® setting is enabled and discoverable, then follow the step-by-step instructions in the Filtrete™ Smart app to pair your filter

Install Filter

1. Insert filter into the designated opening in your home's furnace, air conditioning system, or wall/ceiling return with the arrow on the frame pointing toward the unit's blower motor.

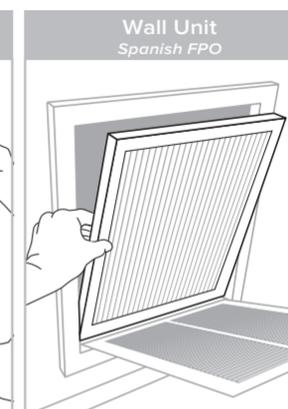

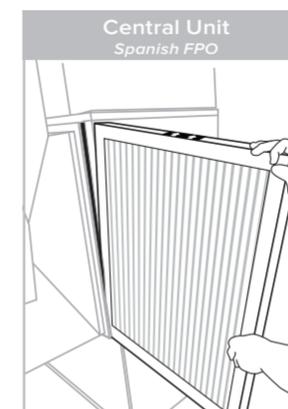

2. Track and monitor the life of your filter with the Filtrete™ Smart app and replace when recommended.

3. After replacement, while keeping your hands and fingers clear of the filter's metal wire, remove the sensor enclosure from the used Filtrete™ Smart Air Filter and follow your local electronics guidelines for disposal.

The bar rating indicates the level of particle capture performance of this filter compared with other Filtrete filters.

Microparticle Performance Rating (MPR)
Filtrete™ Air Filters use the MPR to measure the smallest airborne particles in your home's air (1 micron or less in size). The higher the MPR on your Filtrete™ Filter, the more particles the filter will capture from your air when you run your heating and cooling system. **This filter's MPR: XXXX**
