PAIRING 2 SPEAKERS

Pair Both Speakers Together BEFORE connecting to Bluetooth.

Pairing Speakers for the first time
1) Quickly press the ON/OFF button on the two (2) speakers.
2) Press and hold the ON/OFF button on the first speaker. Hold until an audible tone is heard. This speaker is now the master. The Bluetooth indicator will start flashing to pair with the second speaker. If paired successfully, the Bluetooth indicator will stop flashing and will produce an audible beep.
3) Now you can start with your Bluetooth device. Once the speakers are connected to a Bluetooth device and the master speaker is selected in the Bluetooth settings on the master speaker will remain lit (blue). The second speaker's Bluetooth indicator will flash blue.
4) When the Bluetooth indicator on the master speaker is lit (blue) and the second speaker's Bluetooth indicator is lit (blue), the second speaker will disconnect from pairing mode in 10 seconds allowing the master speaker to function on its own.
5) To deactivate the pairing function, press and hold either speaker until an audible tone is heard.

Repeating speakers automatically
If speakers were paired before being turned off, they will pair themselves automatically the next time they are powered on.
Speakers are equipped with a memory function to continue in the same mode prior to being turned off.

Switching master speaker operation
1) Disconnect the Bluetooth device.
2) Press and hold ON/OFF button on the speaker to determine master operation.

WARNINGS AND PRECAUTIONS

FCC STATEMENT

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

CALIFORNIA PROP 65 WARNING

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.gov.

IC STATEMENT

This device complies with Industry Canada License-exempt RSSA. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) the device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada relatives aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage; (2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

FCC/IC Radiation Exposure Statement:
This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
Déclaration d'IC sur l'exposition aux radiations:
Cet équipement est conforme aux limites d'exposition aux radiations établies par le Canada pour des environnements non contrôlés. Cet équipement doit être installé et utilisé à une distance minimum de 20 cm entre l'antenne et votre corps.
Cet émetteur ne doit pas être installé au même endroit ni utilisé avec une autre antenne ou un autre émetteur.
