to move the image.

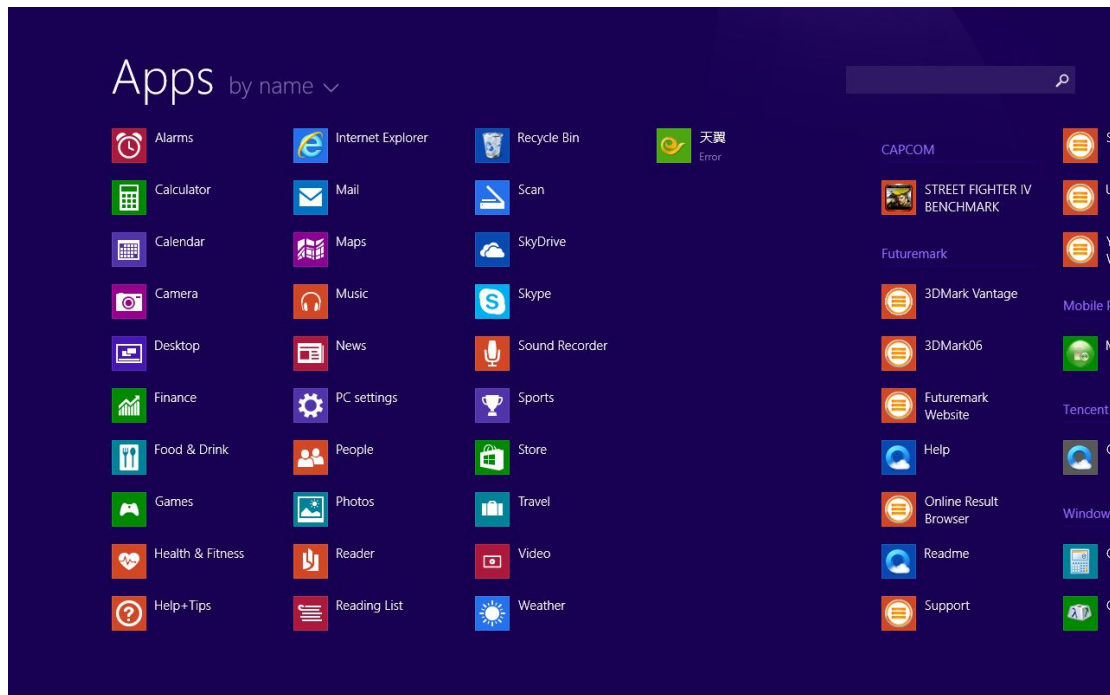

### Slide upward

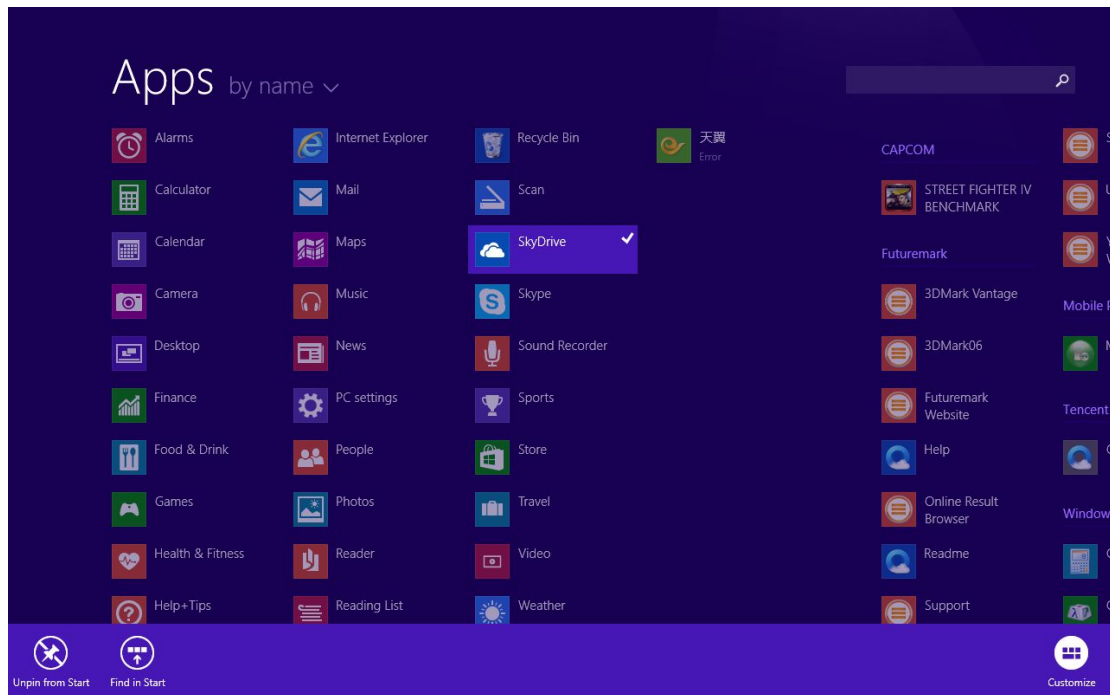

In the start screen, slide upward from the bottom of the screen to visit all application program (APPS) interfaces.

### 3. Introduction to app Interface

Besides the application programs already fixed on the start screen, you can also start other application programs in all application programs, such as other software application programs attached to the Tablet PC.

If you want to fix more application programs on the start interface, see the operation in the figure below, (1) lightly touch, press and hold the application program magnet for about one second and then let go, and select (2) to fix to the start screen.

Conversely, if you want to cancel or delete a certain application in the start screen, (1) lightly touch, press and hold the application program magnet for about one second and then let it go and run, and select (2) attribute column to cancel the programs such as fixation and deletion and then it can be completed.

#### 4. Charm menu column

4.1.1. Slide it to the left from the right side of the screen to start Charm menu column, including: Start, Device, Setup, Share, and Search Program.

4.1.2. Slide it to the left from the right side of the screen to start Charm menu column, including: Start, Device, Setup, Share, and Search Program.

Can let you search the files and application programs in the Tablet PC.

Can let you share the program through social exchange website or e-mail.

Can return to the start screen. From the start screen, you can also use this function to return the application program that is opened in the latest.

Can let you read, write and share files, connect external screen or printer with the device connected to the Tablet PC.

Can let you set up the Table PC.

## **FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device,

pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable

protection against harmful interference in a residential installation. This equipment generates

uses and can radiate radio frequency energy and, if not installed and used in accordance with

the instructions, may cause harmful interference to radio communications. However, there is

no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning

the equipment off and on, the user is encouraged to try to correct the interference by one or

more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is

connected.

-- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two

conditions:(1) This device may not cause harmful interference, and (2) this device must accept

any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be

used in portable exposure condition without restriction.
