

RD5201

Trademark : 

Model: RD5201

Rated input voltage: 12V 

Current: 0.96A

HF RFID Reader

FCC ID: 2AF18-RD5230

IC: 26251-RD5230

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

MANUFACTURER :Guangzhou Andea Electronics Technology Co., Ltd.

RD5206

Trademark : 

Model: RD5206

Rated input voltage: 12V 

Current: 0.96A

HF RFID Reader

FCC ID: 2AF18-RD5230

IC: 26251-RD5230

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

MANUFACTURER :Guangzhou Andea Electronics Technology Co., Ltd.

RD5212

Trademark : 

Model: RD5212

Rated input voltage: 12V 

Current: 0.96A

HF RFID Reader

FCC ID: 2AF18-RD5230

IC: 26251-RD5230

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

MANUFACTURER :Guangzhou Andea Electronics Technology Co., Ltd.

RD5224

Trademark : 

Model: RD5224

Rated input voltage: 12V 

Current: 0.96A

HF RFID Reader

FCC ID: 2AF18-RD5230

IC: 26251-RD5230

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

MANUFACTURER :Guangzhou Andea Electronics Technology Co., Ltd.
