Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>Le présent appareil est conforme aux CNR d'Industrie Canada relatives aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.</p> <p>Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. 	<p>Under Industry Canada regulations, this radio transmitter may only operate within an antenna of 0.5m and maximum power level as approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the maximum average radiated power will be 1W or more than that necessary for successful communication.</p> <p>Conformément à la réglementation d'Industrie Canada, le présent appareil radio peut fonctionner uniquement lorsqu'il est équipé d'une antenne d'une longueur maximale de 0,5 m et que la puissance moyenne émise ne dépasse pas 1 watt. Afin de réduire le risque de brouillage radioélectrique à d'autres utilisateurs, il faut choisir le type d'antenne et son gain de telle sorte que la puissance moyenne émise ne dépasse pas 1 watt, ou plus que nécessaire pour assurer une communication réussie.</p> <p>MPE Requirements: To satisfy FCC Part 15B equipment requirements, a separation distance of 20 cm or more should be maintained between the antenna of the device and persons during normal operation. To ensure compliance, operators should place the device in use as recommended.</p> <p>Les appareils radio sont classés d'émission de classe B ou de classe de protection de brouillage. Ils sont destinés à être utilisés dans des environnements résidentiels. Ces appareils génèrent, utilisent et peuvent émettre de l'énergie radioélectrique et, s'ils ne sont pas installés et utilisés conformément aux instructions, peuvent causer des interférences nuisibles aux communications radio. Cependant, il n'y a aucune garantie que des interférences ne se produiront pas dans une installation particulière. Si cet équipement provoque des interférences nuisibles avec la réception radio ou la télévision, ce qui peut être déterminé en faisant passer l'appareil de l'état «on» à l'état «off», l'utilisateur est encouragé à essayer de corriger l'interférence par l'une ou plusieurs des mesures suivantes:</p> <ul style="list-style-type: none"> Reorienter ou réorienter l'antenne de réception. Augmenter la séparation entre l'équipement et le récepteur. Brancher l'équipement sur une prise sur un circuit différent de celui auquel le récepteur est connecté. Consulter le détaillant ou un technicien expérimenté en matière de radio/TV pour obtenir de l'aide. <p>CE FCC ID: A18B-YI5080</p>
