<p>5. Preview Live Footage Use the YI Home app to watch live footage on your phone. You can also record and save videos or images. Attention: It is illegal in many jurisdictions to record an audio conversation without the consent of all individuals. Please comply with all laws when using your YI 1080p Home Camera.</p>  <ul style="list-style-type: none"> Hold to talk Record Videos Mute Show timeline Take photos Full screen Playback history Alerts 	<p>6. Switch Wi-Fi Networks When you need to switch Wi-Fi networks or update your Wi-Fi password, follow the instructions below: 1. Use a dip to press the reset button on the back of the camera, and wait until the red light comes on. 2. Open the YI Home app on your phone, and connect the camera to your phone again. Your videos stored on your MicroSD card will not be affected.</p> 	<p>Important safety guidelines</p> <ol style="list-style-type: none"> Read these instructions. Open only with dry hands. This camera is for indoor use only. Only use attachments/accessories specified by the manufacturer. Unplug this apparatus during lightning storms or when unused for long periods of time. To get the best usage out of this product, please consistently update to the latest versions of our app and firmware. <p>WARNING: Open flame sources such as candles should not be placed near or on the product.</p> <p>Note: *Xiaoyi and "YI" logo are trademarks of Shanghai Xiaoyi Technology Co., Ltd.</p>	<p>This device complies with Part 15 of the FCC Rules (Industry Canada license-exempt RSS) provided that the user is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause abnormal operation. Le présent appareil ne cause pas d'interférence radio nuisible aux appareils radio exempts de licence. L'utilisateur doit accepter toute interférence radio qu'il peut recevoir sans garantie de fonctionnement.</p> <p>Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. 	<p>Under Industry Canada regulations, the radio transmitter may only operate within an antenna of 0.1m and maximum net length 0.5m for the transmitter to comply with the radio interference limits. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the maximum average radiated power (ERP) is not more than that necessary for successful communication.</p> <p>Conformément à la réglementation d'Industry Canada, le présent appareil radio peut fonctionner avec une antenne d'une longueur maximale nette de 0,1 m et une longueur maximale nette de 0,5 m. Afin de réduire le risque de interférence radio nuisible aux autres utilisateurs, il est recommandé de choisir le type d'antenne et son gain de telle sorte que la puissance moyenne rayonnée (ERP) ne dépasse pas l'énergie nécessaire à la communication radio.</p> <p>MFE Requirements: To satisfy FCC Part 15B equipment requirements, a separation distance of 20 cm or more should be maintained between the antenna of the device and persons during normal operation. To ensure compliance, consult the label for the distance not recommended. Les appareils radio doivent respecter des distances de séparation de 20 cm ou plus de la population ou des personnes pendant leur utilisation normale. Afin de respecter les exigences de la FCC, il est recommandé de maintenir une distance de 20 cm ou plus de la population ou des personnes pendant leur utilisation normale. Consultez l'étiquette pour connaître la distance de séparation recommandée.</p> <p>Opening position: The camera cover is not to be opened during normal operation.</p>
