ANNEX

EXHIBIT 1 - PRODUCT LABELING

Proposed FCC ID Label Format

FCC ID: 2AFJA-LPV6

Specifications: Users must be able to access the regulatory information without requiring special access codes or permissions, and in all cases the information must be accessible in no more than three steps from a product's main or home menu. Products must not require special accessories or supplemental plug-ins (e.g., the installation of a SIM/USIM card) to access the information. The FCC ID, or other information must be displayed electronically in a manner that is clearly legible without the aid of magnification. Both regulatory information and dedicated exclusive application(s) or script(s) must be secured and implemented in a factory-set-unalterable format. When e-labeling is used, a physical temporary label is also required on the product, or a label on the packaging, at the time of importation, marketing, and sales. The physical label can be a summary version of the required regulatory information, such that the product can be identified as complying with the FCC's equipment authorization requirements, etc.

The way to view the e-Label: 1. Home; 2. Settings menu; 3. About. A physical temporary label will be affixed to the product, which is a protective film on the back of the product.

Proposed Label Location on EUT
