The perfect match!

Wouldn't it be awesome to enjoy your Byte3 from the comfort of your couch? Allow us to introduce you to The Lynk. Is the ultimate multi-functional remote control recognized for its smooth Gyroscope technology and audio chat capabilities complete with a backlit QWERTY keyboard and 3D motion sense handgrip for easy web browsing media streaming, and creating physically-engaged gaming experience. With the latest infrared AI technology, the Lynk is able to learn the functions of most remotes. Plug it into your Byte3 and take your experience to a whole new level!

What's in the box?

- Byte3
- Power adapter 12V/2A
- Quick Guide
- L.R Remote

How can I set it up?

- 1 Plug your high definition cable to your TV or monitor.
- 2 Plug the other end of the cable to your Byte3.
- 3 Connect the 12V power adapter to the Byte3 and power it on.
- 4 Choose the correct high definition input and enjoy your Byte3!

AZULLE®

Quick Guide

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The distance between user and products should be no less than 20cm

The transmission frequency is maintained within the allowable range under all conditions of normal operation of this device.
